

## **Join ESMRMB by becoming an Associate Member free of charge!**

December 2011

Dear Members,

As you might know, DSMMR is a Partner Society (formerly known as Affiliated Member) of the European Society for Magnetic Resonance in Medicine and Biology (ESMRMB).

The ESMRMB was founded in 1984 and has since then organised 26 Scientific Congresses and a large number of other educational courses in MRI for physicians, physicist and technologists. In 1994, MAGMA became the official journal of the society. Currently the ESMRMB has more than 1000 members.

One of the benefits of our society being Partner Society of ESMRMB is the possibility for our members, to become an ESMRMB Associate Member!

At the moment there are two different options of Associate Membership:

- Free Associate Membership, including access to all information related to the activities of ESMRMB
- Associate Membership including online access to the official journal of ESMRMB, MAGMA in addition to the other services indicated above. In order to benefit from this service, an annual associate membership fee of EUR 10.- will become applicable for each individual wishing to have online access to MAGMA, payable directly to ESMRMB.

Your membership also includes free access to EPOS™, ECR's Electronic Presentation Online System, which includes the electronic presentations of the ESMRMB meetings since 2004.

Please just visit ESMRMB's [online membership application form](#) from late December 2011 onwards and choose your preferred membership type during the application process. Please make sure to also add the information that you are a member of DSMMR.

If you would like to additionally benefit from reduced member fees at our annual meetings and educational programme, you are most welcome to join ESMRMB as an ordinary member. [More details on ESMRMB's membership types and benefits as well as society activities can be found on \[www.esmrmb.org\]\(http://www.esmrmb.org\)](#)

Yours sincerely,  
DSMMR and ESMRMB
